COOPERATIVE INSTITUTIONAL RESEARCH PROGRAM

The Cooperative Institutional Research Program (CIRP) is a national longitudinal study of the American higher education system. Established in 1966 at the American Council on Education, the CIRP is now the nation's largest and longest empirical study of higher education, involving data on some 1,300 institutions, over 8 million students, and more than 100,000 faculty. To maximize the use of these data in research and training, the CIRP was transferred to the Graduate School of Education at UCLA in 1973. The annual CIRP freshman and follow-up surveys are now administered by the Higher Education Research Institute at the University of California, Los Angeles, under the continuing sponsorship of the American Council on Education.

AMERICAN COUNCIL ON EDUCATION

The American Council on Education (ACE), founded in 1918, is a council of educational organizations and institutions. ACE seeks to advance education and educational methods through comprehensive voluntary and cooperative action on the part of American educational associations, organizations, and institutions.

HIGHER EDUCATION RESEARCH INSTITUTE
University of California, Los Angeles

The Higher Education Research Institute (HERI) is based in the Graduate School of Education at the University of California, Los Angeles. The Institute serves as an interdisciplinary center for research, evaluation, information, policy studies, and research training in postsecondary education. HERI's research program covers five broad areas: the outcomes of postsecondary education; academic administration and institutional management; faculty performance; federal and state policy assessment; and educational equity.

The American Freshman

National Norms for Fall 1988

The American Freshman
National Norms for Fall 1988[1]

This is the twenty-third annual report of national normative data on the characteristics of students attending American colleges and universities as first-time, full-time freshmen. This series, initiated in Fall 1966, is a project of the Cooperative Institutional Research Program (CIRP), a continuing longitudinal study of the American higher education system sponsored by the American Council on Education (ACE) and the Graduate School of Education at the University of California, Los Angeles

The principal purpose of the CIRP is to assess the effects of college on students (see Astin, *et. al.,* 1966). During the past 23 years the CIRP has generated an array of normative, substantive, and methodological research about a wide range of issues in American higher education.

The freshman data reported here have been weighted to provide a normative profile of the American freshman population for individuals engaged in policy analysis, human resource planning, campus administration, educational research, and guidance and counseling. The data are also useful to the general community of current and future college students, their parents, and to college faculty.

The survey instrument, the *Student Information Form* (see Appendix B), is revised annually to reflect the changing concerns of the academic community and others who use this information. The freshman survey data also provide initial input information for longitudinal research. Follow-up surveys of individual students in each entering freshman cohort are conducted at various intervals after the initial survey. In recent years longitudinal follow-up studies of CIRP students have been used in major studies of drop-outs (Astin, 1975), campus protest (Astin, Astin, Bayer, & Bisconti, 1975), education and work (Bisconti and Solmon, 1976), campus change (Astin, 1976), student development (Astin, 1977, 1986), and minority participation in higher education (Astin, 1982). For the results of the most recent follow-up study see Astin, Korn and Green, 1987.

The normative data presented here are reported separately for men and for women, and for 35 different groupings of institutions. The major stratifying factors are institutional race (predominantly black versus predominantly white), control (public, private-nonsectarian, Roman Catholic, Protestant), type (university, four-year college, two-year college), and the "selectivity level" of the institution. (A complete discussion of the CIRP survey methodology and stratification scheme is presented in Appendix A.)

An Overview of the 1988 Freshman Norms

The 1988 CIRP Freshman norms are based on the responses of 222,296 students at 402 of the nation's two- and four-year colleges and universities. These data have been statistically adjusted to reflect the responses of the 1.6 million first-time, full-time students entering college as freshmen in Fall 1988. The sections that follow summarize major trends in the survey through Fall 1988.

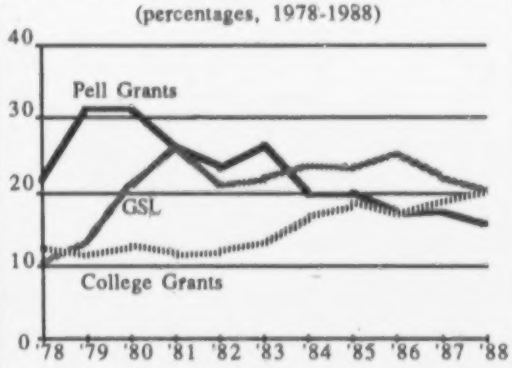
[1]The 1988 CIRP Freshman Survey was supported in part by a grant from the Ford Foundation.

Student Aid

The 1988 survey results indicate that freshman participation in all major federal financial aid programs continues to decline. This past fall, only 15.6 percent of the entering students received Pell Grants, the lowest level in the history of the survey. Between 1980 and 1988, the proportion of entering freshmen receiving Pell Grants, the Federal government's major aid program for low- and middle-income students, declined by more than half (from 31.5 percent to 15.6 percent).

The declining participation in the Pell Grant program among college freshmen has been accompanied by falling participation in other federal aid programs. Freshman reliance on Supplemental Educational Opportunity Grants (SEOGs) and College Work-Study funds also reached all-time lows in 1988. This past fall only 3.7 percent of the freshmen reported receiving SEOG support, down from 5.8 percent last year and off by more than half from the 8.0 percent level recorded in 1980. At the same time, freshman participation in the Work-Study program has dropped by more than half in the past eight years, to 6.6 percent in 1988 from 14.5 percent in 1980 (and compared to 9.8 percent in 1987).

Figure 1
Freshman Participation in Student Aid Programs
(percentages, 1978-1988)



As federal assistance has declined, students are relying more on family contributions, savings, loans, and institutional grants. This past year an all-time high of 78.2 percent of the freshmen were dependent on family support for college costs, up from 76.5 percent in 1987 and 68.8 percent in 1980. Similarly, college grants and scholarships also reached an all-time high in 1988, at 20.0 percent of the entering freshmen, compared to only 12.8 percent in 1980.

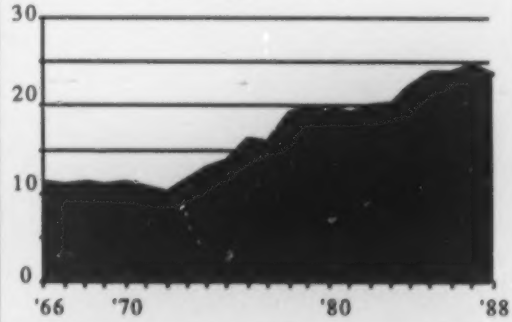
Even federal loan programs, which had begun to replace grants as a major source of aid for a growing number of students in recent years, have also shown declines. Freshman dependence on Federally-Guaranteed Student Loans (GSLs), which rose steadily between 1980 and 1986, fell for the second straight year. Between 1980 and 1986, the proportion of freshmen receiving GSL's was up by nearly one-fifth, from 20.9 percent to 25.4 percent. However, participation in the GSL program has fallen in the past two years, to 22.2 percent in 1987 and to 20.1 percent this past fall. Concurrently, fewer freshmen also report receiving National Direct Student Loan (NDSL) support. This past year NDSL support dropped to an all-time low of 2.4 percent, compared to 4.5 percent in 1987 and 9.1 percent in 1980.

These trends suggest that the burden of paying for college is increasingly falling on students, their families, and their colleges. Since 1980, the federal government has dismantled most of the financial aid programs intended to assist college students from middle-income families. Consequently, the eligibility requirements for most forms of federal student aid have simply not kept pace with rising college costs and with the inflationary increases in family incomes. The dramatic increase in institutional aid, confirmed by other studies (for example, Green, 1988), suggests that a growing share of the financial aid responsibility for low- and middle-income families is being passed from the federal government to the nation's colleges and universities.

Business Careers

The 18-year rise in freshman interest in business majors and careers may have peaked, after almost two decades of steady gains. In 1988, 23.6 percent of the entering freshmen planned to pursue careers in business, down from 24.6 percent in 1987 and 24.1 percent in 1986 (Figure 2). The 1988 numbers, however, are still well above the levels recorded in 1980 (at 19.7 percent) and far ahead of the level of interest in business careers shown in 1972 (10.5 percent).

Figure 2
Freshman Interest in Business Careers
(percentages, 1966-1988)



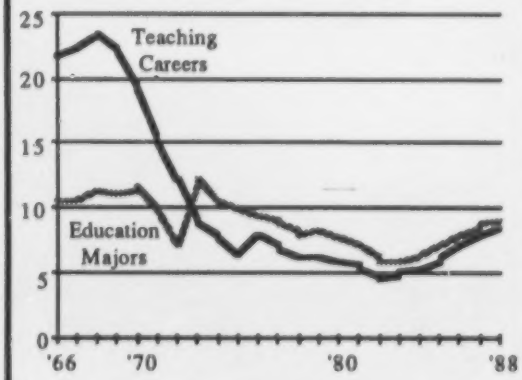
Nursing Careers

After several years of continuing decline, the 1988 survey points to a modest increase in the proportion of students planning to pursue nursing careers. This past fall, 4.4 percent of the freshman women expressed interest in nursing careers, up from 4.0 percent in 1987, but well-below the 8.4 percent recorded in 1983. This year's increase may mark the beginning of some change in the pipeline in nursing, as more women respond to the better job opportunities and improved salaries created by the widely publicized nursing crisis. However, one year of improvement does not mark an end to the pipeline problem, as nursing will continue to compete with other careers, including medicine, business, and teaching, for the career interests of college-bound women.

Teaching Careers and Education Majors

The 1988 survey reveals rising student interest in teaching careers, continuing a trend begun in 1983. This past year, 8.8 percent of the students entering college planned to pursue careers as elementary or secondary school teachers, up from 8.1 percent last year and the low point of 4.7 percent in 1982. Yet despite the increased freshman interest in teaching careers, the current level of student interest in teaching still falls far short of the projected demand and is well below the all-time high recorded in 1968 when 23.5 percent of the entering freshmen (and 37.5 percent of the freshman women) planned to pursue teaching careers. (Figure 3.)

Figure 3
Freshman Interest in Education Careers
(percentages, 1966-1988)

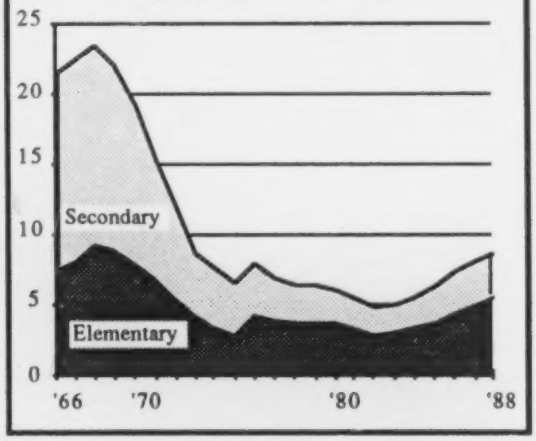


The rising interest in teaching in recent years also masks some important trends regarding which students plan teaching careers and at what levels and in which fields. Twenty years ago, education majors accounted for just less

than half (only 48 percent) of the pool of aspiring teachers; the majority of aspiring teachers were students who planned liberal arts majors, often in English, science, or mathematics (Figure 3). In Fall 1988, however, virtually all the aspiring teachers are education majors; the survey data reveal virtually no interest in teaching careers among students pursuing liberal arts majors.

Additionally, there is far less interest in secondary school teaching in 1988 than was the case in the late 1960s (Figure 4). In 1968, 14.4 percent of the entering freshmen planned careers as secondary school teachers, compared to just 3.2 percent in 1988. Although the 1988 figure for secondary school teachers is well ahead of the low of 1.7 percent recorded in 1982, it is still more than three-quarters below the 1968 level.

Figure 4
Freshman Interest in Teaching Careers, by Level
(percentages, 1966-1988)



Science Majors and Technology Careers

Interest in science majors, falling steadily over the past two decades, declined again this past year. In 1988, only 15.3 percent of the entering freshmen planned science majors (biological sciences, physical sciences, mathematics, or engineering), compared to 15.4 percent in 1987, 18.1 percent in 1980, and 21.3 percent in 1966 (Figure 5).

Yet technology careers, in steady decline since 1983, did not drop again in 1988 (Figure 7). Freshman interest in engineering careers increased just slightly, to 8.6 percent, up from 8.5 percent in 1987, but still well below the peak of 12.0 percent recorded in 1982. Similarly, interest in computing (as programmers or systems analysts), in sharp decline since 1983, was unchanged from the 1987 level of 2.7 percent (compared to 8.8 percent in 1982). Although the 1988 data suggest an end to the five-year decline in student interest in technology careers, it is too early to determine if this reflects a real turnaround or just a leveling off of the recent downward trend.

Figure 5
Freshman Interest in Science Majors
(percentages)

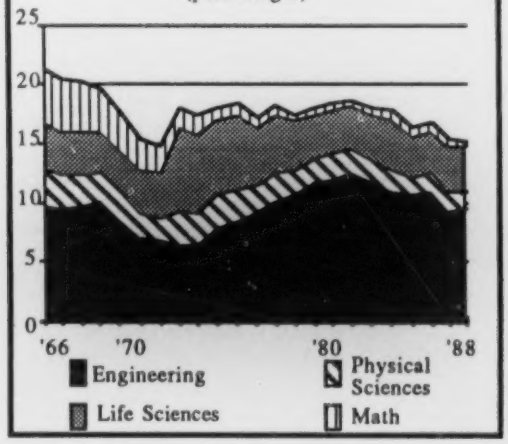


Figure 6
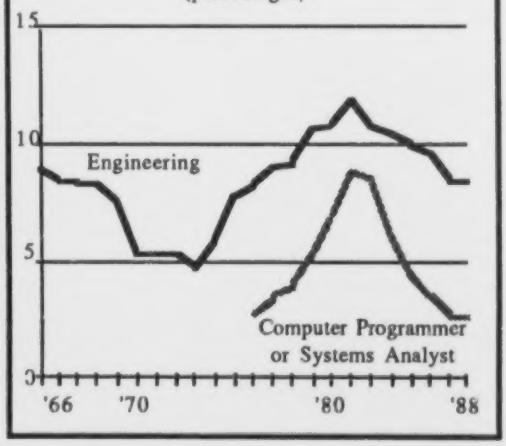
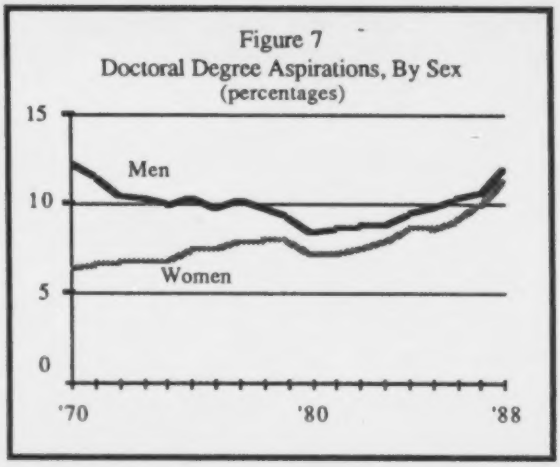
Freshman Interest in Technology Careers
(percentages)



Degree Aspirations

Degree aspirations, rising in recent years, again hit all-time highs in 1988. The proportion of freshmen interested in obtaining a doctoral degree rose to 11.7 percent in 1988, up from 10.4 percent in 1987, 7.9 percent in 1980, and 9.7 percent in 1970. Freshman aspirations for the masters degree also peaked in 1988, at 36.3 percent, up from 34.3 percent in 1987, 29.7 percent in 1980, and 31.2 percent in 1970. Interest in law degrees also peaked this past year at 5.0 percent, up from 4.2 percent in 1987, 3.6 percent in 1985, 4.3 percent in 1980, and 3.5 percent in 1970.

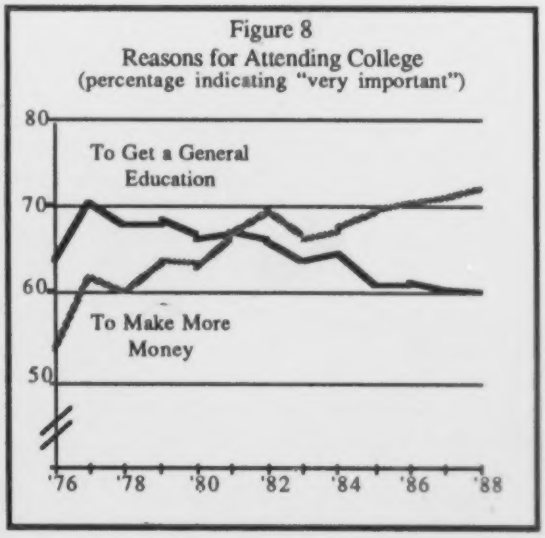


Although these gains are notable, they mask the even more dramatic rise in degree aspirations among women over the past 20 years. Between 1970 and 1988, the proportion of freshman women planning to earn a doctorate increased by two-thirds (from 6.5 percent to 11.4 percent); this compares with an ebb-and flow-pattern among men, beginning at 12.3 percent in 1970, falling to 8.5 percent in 1980, and rising again to 12.1 percent in 1988 (Figure 7).

The rise in degree aspirations may suggest that a growing proportion of students feel that the bachelor's degree will not be an adequate credential in the job market of the next decade and into the next century. The survey data suggest that more students are thinking about advanced degrees even when they first enter college.

Reasons for Attending College

The concern about jobs and money is also reflected in the reasons students provide for attending college. A record 72.6 percent indicated that "making more money" was a very important factor in their decision to attend college, up from 71.3 percent in 1987, 63.4 percent in 1980, and 49.9 percent in 1971. In contrast, going to college "to gain a general education" fell again in 1988 to 60.1 percent, from 60.7 percent in 1987, 66.7 percent in 1980, and a peak of 70.9 percent in 1977.



These data, coupled with rising degree aspirations and the increased freshman interest in business careers in the past decade, point to a growing student interest in financial security and job opportunities. Students today, more than ever before, seem preoccupied with developing their careers rather than using the college years as a time for learning and personal development.

College Admissions

The 1988 survey points to increased competition for admission into college. The proportion of freshmen applying to three or more colleges reached an all-time high of 37.1 percent in 1988, compared to 33.2 percent in 1987, 26.5 percent in 1980, and 14.9 percent in 1968. Additionally, the proportion of students applying to five or more colleges rose by more four-fifths between 1980 and 1988 (from 6.9 percent in 1980 to 12.7 percent this past fall), and is up by a factor of almost 4 from the level recorded in 1969, when only 3.2 percent of the entering students applied to five or more colleges (Figure 9).

Although freshmen are applying to more colleges than in the past, fewer students are enrolling in their first-choice institutions. Only two-thirds (67.9 percent) of the 1988 freshmen are attending their first-choice college, a record low in the history of the survey. The 1988 numbers compare to 70.3 percent in 1987, 75.8 percent in 1980, and 75.6 percent in 1974, the first year this item appeared on the survey (Figure 10).

Figure 9
Trends in College Applications, Selected Years
(percentages)

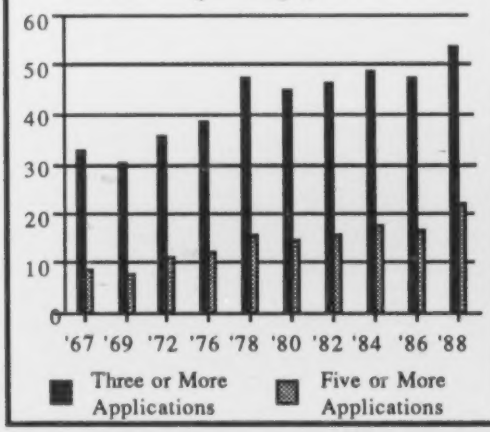


Figure 10
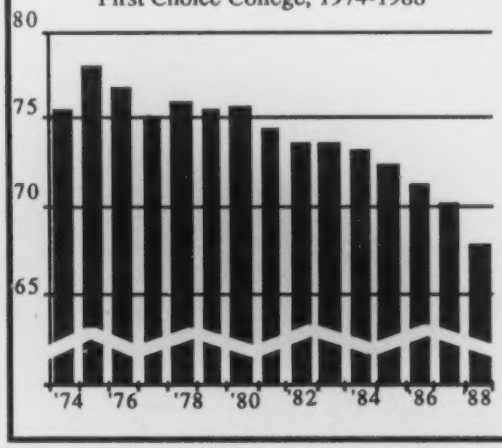
Percentage of Freshmen Attending Their First Choice College, 1974-1988



These findings about applications and college choice indicate that students are experiencing more difficulty gaining entrance to their most preferred college. The competition — as reflected in the growing numbers of students who file multiple applications — suggests several things: increased competition for admission, greater interest in more selective colleges, and increased family efforts to obtain the more favorable financial aid packages from colleges.

Smoking, Drinking, and Stress

After years of steady decline, cigarette smoking seems on the rise among the 1988 freshmen. This past fall 10.1 percent of the entering freshmen reported that they frequently smoked cigarettes, up from the record low of 8.9 percent recorded in 1987. Indeed, cigarette smoking had been declining steadily since 1966, when 16.6 percent of the freshmen indicated they were frequent smokers.

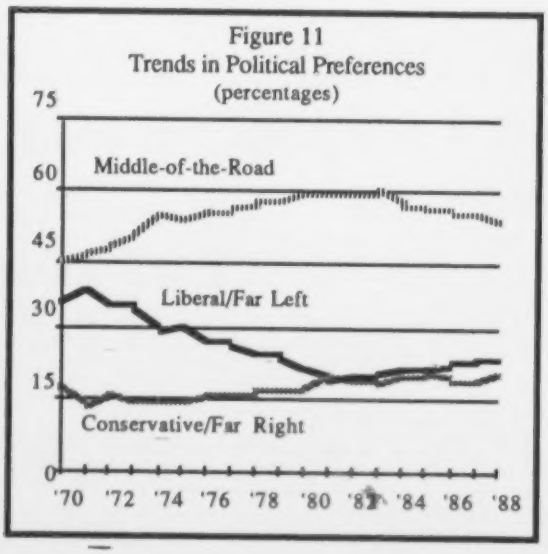
Although freshmen are smoking more, they may be drinking less. This past fall only two-thirds of the freshmen (65.3 percent) indicated that they frequently or occasionally drank beer, down from 75.2 percent in 1981. This decline may reflect recent increases of the drinking age to 21 in many states; it may also reflect the success of alcohol education programs in high schools and the efforts of groups such as Mothers Against Drunk Driving (MADD) to curb teenage drinking.

The 1988 survey suggests some decline in the overall emotional health of college freshmen. A record number of freshmen report frequently "feeling depressed" in the past year (10.5 percent, up from 8.3 percent in 1987 and 8.2 percent in 1985), and "feeling overwhelmed by all I have to do" (21.5 percent last fall, compared to 16.4 percent in 1987 and 16.0 percent in 1985). These changes are accompanied by a decline in the proportion of freshmen who feel they are above average in their emotional health when compared to their peers (56.1 percent in 1988, compared to 56.8 percent in 1987 and 60.3 percent in 1985).

Taken together, various items from the 1988 survey point to rising stress among college freshmen. The increase in smoking, coupled with the rising numbers of students feeling depressed, feeling overwhelmed, and the decline in self-assessed emotional health, are all indicators of rising stress. Several factors, ranging from student concern about paying for college, the increased competition for admission into selective institutions, and the decline in the proportion of students attending their first choice institution, are likely contributors to the rising stress levels among students.

Political and Social Attitudes

The survey reveals some change in self-assessed political identification among 1988 freshmen. One-fourth (24.3 percent) identify their political views as "liberal" or "far left", virtually unchanged from 1987 (at 24.5 percent), slightly ahead of the levels recorded in 1980 (at 21.8 percent), but well below the peak of 38.1 percent recorded in 1971 (Figure 11). However, the proportion of students who identify their political views as "conservative" or "far right" reached an all-time high in 1988, at 21.8 percent, up from 19.6 percent in 1987, 18.3 percent in 1980, and a low of 14.5 percent in 1973. The middle-of-the-road group, which had been increasing during the 1970s and peaked at three-fifths (60.3 percent) of the freshmen in 1983, has been declining in recent years; it now stands at 53.9 percent, reflecting the modest but steady increases among both the liberal and conservative positions.



Yet the generally moderate political orientation of most freshmen masks strong student support for many traditionally liberal positions on political and social issues. For example:

- over four-fifths (83.9 percent) of the freshmen agree that "the federal government is not doing enough to control environmental pollution";
- two-thirds (65.4 percent) agree that the "federal government is not doing enough to protect the consumer from faulty goods and services";
- more than half (57.0 percent) agree that abortion should be legal;
- a majority (53.7 percent) agree that busing is "OK if it helps to achieve racial balance in the schools";
- two-thirds (66.7 percent) agree that the "government is doing not enough to promote disarmament;" and
- three-fourths (73.7 percent) oppose increased defense spending (Figure 12).

Although some of these items show slightly lower support in 1988 than in the past, the level of freshman endorsement nonetheless remains quite high.

Still, students have become increasingly conservative on selected issues in recent years. Opposition to the death penalty reached an all-time low in 1988, at 23.0 percent, down from 23.8 percent in 1987, and 32.6 percent in 1978. Similarly, an all-time high of 69.1 percent of the freshmen agree that "there is too much concern in the courts for the rights of criminals," up from 68.3 percent in 1987, 65.9 percent in 1980, and 48.1 percent in 1971. Finally, less than one-fifth of the 1988 freshmen agree that marijuana should be legal, unchanged from 1987 but well below the peak of 52.9 percent posted in the 1977 survey.

Two new questions introduced this past year indicate that freshmen strongly support AIDS and drug testing. Two-thirds (67.7 percent) of the 1988 freshmen agree that "the best way to control AIDS is through widespread, mandatory testing." And a slightly larger proportion (71.0 percent) agree that "employers should be allowed to require drug testing of employees or job applicants." The overwhelming freshman support for conservative positions on these issues stands in stark contrast to the generally strong support for traditionally liberal positions on other social issues.

Notes

1. Percentages will sum to more than 100 if any students check more than one category.
2. Because no Black two-year colleges participated in the 1988 survey, the associated Black enrollment is deflated in the two-year college norms and inflated in the four-year college norms.
3. Based on the curriculum recommendations of the National Commission on Excellence in Education.
4. Frequently only on this item, all other items in this group reflect responses for frequently or occasionally.
5. Students who applied to no other college (i.e. who applied to only one college) are not included in this item.
6. Recategortization of this item from a longer list shown in Appendix C.
7. Comparisons with the previous years not recommended due to change in item order.

Notes

1. Percentages will sum to more than 100 if any students check more than one category.
2. Because no Black two-year colleges participated in the 1988 survey, the associated Black enrollment is deflated in the two-year college norms and inflated in the four-year college norms.
3. Based on the curriculum recommendations of the National Commission on Excellence in Education.
4. Frequently only on this item, all other items in this group reflect responses for frequently or occasionally.
5. Students who applied to no other college (i.e. who applied to only one college) are not included in this item.
6. Recategorization of this item from a longer list shown in Appendix C.
7. Comparisons with the previous years not recommended due to change in item order.

Notes

1. Percentages will sum to more than 100 if any students check more than one category.
2. Because no Black two-year colleges participated in the 1988 survey, the associated Black enrollment is deflated in the two-year college norms and inflated in the four-year college norms.
3. Based on the curriculum recommendations of the National Commission on Excellence in Education.
4. Frequently only on this item, all other items in this group reflect responses for frequently or occasionally.
5. Students who applied to no other college (i.e. who applied to only one college) are not included in this item.
6. Recategortization of this item from a longer list shown in Appendix C.
7. Comparisons with the previous years not recommended due to change in item order.

Notes

1. Percentages will sum to more than 100 if any students check more than one category.
2. Because no Black two-year colleges participated in the 1988 survey, the associated Black enrollment is deflated in the two-year college norms and inflated in the four-year college norms.
3. Based on the curriculum recommendations of the National Commission on Excellence in Education.
4. Frequently only on this item, all other items in this group reflect responses for frequently or occasionally.
5. Students who applied to no other college (i.e. who applied to only one college) are not included in this item.
6. Recategorization of this item from a longer list shown in Appendix C.
7. Comparisons with the previous years not recommended due to change in item order.

Appendix A

Research Methodology

APPENDIX A

RESEARCH METHODOLOGY

1988 CIRP FRESHMAN SURVEY

The freshman survey data reported here have been weighted to provide a normative picture of the American college freshman population for persons engaged in policy analysis, human resource planning, campus administration, educational research, guidance and counseling, as well as for the general community of students and parents. The survey instrument, the Student Information Form (SIF), is revised annually to reflect the changing concerns of the academic community and of others who use the information. SIF data also provide initial input information for longitudinal research. Follow-up surveys of individual students in each entering class are conducted at various intervals after the initial survey. In recent years, longitudinal follow-ups of CIRP students have been used in major studies of dropouts (Astin, 1975), campus protests (Astin, Astin, Bayer, & Bisconti, 1975), education and work (Bisconti and Solmon, 1976), campus change (Astin, 1976), student development (Astin, 1977), minorities (Astin, 1982), and educational policy (Astin, 1985). (For the most recent follow-up report, see Astin *et. al.*, 1987.)

From 1966 to 1970, approximately 15 percent of the nation's institutions of higher education were selected by sampling procedures and invited to participate in the program. As the academic community became aware of the value of program participation, additional institutions asked to participate. Beginning in 1971, all institutions that have entering freshman classes and that respond to the U. S. Department of Education's (DOE) Higher Education General Information Survey were invited to participate. A minimum charge plus a unit rate based on the number of forms processed helps to defray the direct costs of the survey. In Fall 1974 and 1975, samples of proprietary institutions also participated in the survey.

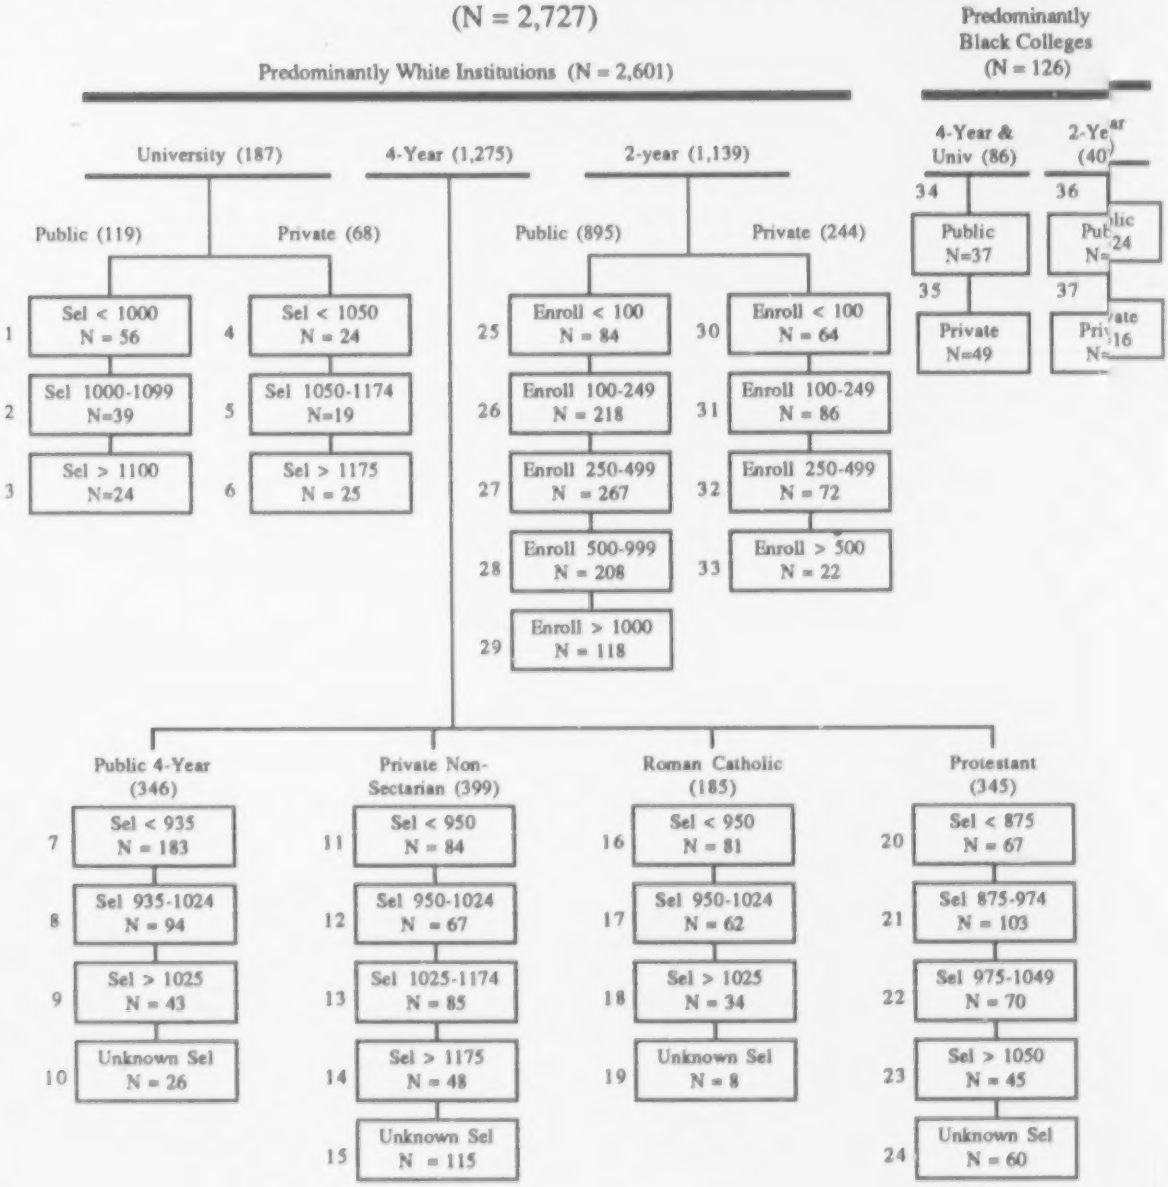
The normative data are reported separately for women and men, and for 37 different groupings of institutions. The major stratifying factors are institutional race (predominantly black versus predominantly white), type (two-year college, four-year college, university), control (public, private-nonsectarian, Roman Catholic, and Protestant), and the "selectivity level" of the institution. Selectivity, which is an estimate of the average academic ability of the entering class, was made an integral part of the CIRP stratification design (Figure A-1) in 1968 because of its substantial correlation with most measures of institutional "quality" (Astin, 1962). Since 1975, a revised and updated selectivity measure has been used (Astin & Henson, 1977). Stratification cell assignment is based chiefly on data supplied by institutions to various educational directories and college guides. Changes in stratification cell assignments do occur; requests for review are honored each year. Appendix D lists the current stratification cell assignment of all institutions that have participated in the CIRP freshman survey since 1966.

The 1988 Data

Although 308,007 entering freshmen at 585 colleges and universities returned their forms in time for data to be included in the 1988 norms, the normative data presented here are based on responses from 222,296 freshmen entering 402 two- and four-year institutions.

The national norms are based only on data from institutions where the coverage of entering freshmen was judged to be representative. This judgment is based on the percentage of first-time, full-time freshmen who completed the 1988 SIF and on the procedures used to administer the forms. Four-

Figure A-1: 1988 Data Bank Population



Selectivity (SEL), used to define strata for four-year colleges and universities, is an estimate of the mean score of entering freshmen on the Verbal plus Mathematical portions of the Scholastic Aptitude Test (or the converted SAT math and verbal equivalents from the American College Test composite). The method of estimation is described in the detail in Astin and Henson (1977) and in Appendix A of the current report. ***Enrollment (ENROLL)***, used to define strata for two-year colleges, is based on the total number of first time, full-time entrants. The stratification design presented here is used to group schools to develop population weights and should not be used as measure of institutional or program quality.

year colleges are included in the national norms if over 85 percent of their first-time, full-time freshmen completed the SIF; universities must have over 75 percent participation, while two-year colleges must have 50 percent.[1]

The normative data presented here were collected by administering the 1988 SIF during registration, freshman orientation, or the first few weeks of classes. The SIF is designed to elicit a wide range of biographic and demographic data, as well as data on the student's high school background, career plans, educational aspirations, financial arrangements, high school activities, and current attitudes. Those data meeting minimal quality requirements for inclusion in the 1988 norms were differentially weighted to represent the population of entering freshmen at all higher educational institutions in the United States.[2]

Part-time students and those who are not first-time college students (i.e., transfers and former enrollees) were excluded from the normative sample. Since the 1972 survey, special care has been taken to define these enrollment statuses; in surveys before 1972, the participating institutions were asked to exclude part-time students, while non-first-time students were excluded during the data processing stage by screening out those who indicated that they had previously attended college. Since that time, all students who did not identify themselves as part-time were included in the national norms if they either graduated from high school in the year of the survey or had never attended any postsecondary institution.

Institutional Stratification Design

The stratification design for the 1988 survey is identical to that used in 1987 (see Figure A-1). The rationale for this particular design is provided in the 1971 and 1979 normative reports.

The population included all eligible institutions of higher education listed in the annual Department of Education *Education Directory* (1986). An institution was considered eligible if it was operating at the time of the survey and if it had a freshman class of at least 25 students. Thus, institutions requiring undergraduate credits for admission to their first class (e.g., some professional schools) and a few very small institutions were excluded. In addition, some institutions or their branches were included even though separate 1986 enrollments were not available from DOE, because they were part of prior universes in these surveys and were known to be functioning with first-time, full-time entering freshmen. With these exceptions, the defined population comprised all accredited and nonaccredited institutions listed by DOE, whether university, four-year college, or two-year college. For the 1988 survey, the population of institutions numbered 2,727.

Typically, institutions make budgetary decisions and plan their orientation and registration programs early in the year. Since these matters affect participation in the freshman survey, institutions must be invited to participate several months before information is available to define the final survey population. A total of 2,727 institutions were invited to participate in the 1987 survey. A total of 591 (21.7 percent) of the institutions accepted the invitation to participate. Of the 562 institutions participating in the 1987 freshman survey, 488 (87.0 percent) opted to participate again in 1988.

Because of administrative and logistic problems, 6 institutions that accepted the invitation to participate in the 1988 survey were unable to return their completed freshman survey forms in time for their data to be included in the national norms. Thus, data were obtained from 585 (99.0 percent) of the institutions that had agreed to participate in the 1988 survey. Appendix D lists all institutions that have participated in the CIRP in any year since its inception in 1966. Appendix D also provides information about current stratification cell assignment, the number of years an institution has participated in the CIRP freshman survey, and its norm status (norms data or not norms data) in all surveys.

---

[1] Each participating institution received a complete tabulation of its data, but those with an unrepresentative sampling were informed that comparisons between their institutional data and the national norms should be made with caution.

[2] A distinction should be made between higher education and postsecondary education. The normative data exclude students attending most proprietary, special vocational, or semiprofessional institutions; they include those attending two-year colleges and terminal occupational programs.

Weighting Procedures

The data obtained from students were differentially weighted because of disproportionate sampling of institutions within each stratification cell and because not all students at each college completed the SIF. Table A-1 shows the number of participating institutions in each stratification cell and the cell weights applied to each institution's data in computing the national norms. The cell weights in the last two columns are the ratios between the number of first-time, full-time freshmen in the eligible population within a given cell and the total number of freshmen entering sample institutions in that cell, computed separately for each sex. Since population data for Fall 1988 or Fall 1987 enrollments were not available at the time of the 1988 survey, these weights were derived from the Department of Education's Integrated Postsecondary Education Data System (IPEDS) Fall 1986 enrollment data. In effect, this procedure assumes that the sample institutions within a cell account for the same proportion of students in that cell in 1988 as in Fall 1986.

These cell weights were further adjusted within each institution, by sex, according to the proportion of the institution's 1988 first-time, full-time freshmen who completed the SIF. These total counts of 1988 freshmen are obtained directly from each participating institution at the time of the freshman survey. Typically, this second weight was between 1.0 and 2.0; in the case of an institution that administered the form to its entire freshman class, the weight was exactly 1.0. The final weight applied to the data from each student was the product of this within-institution participation weight and the appropriate cell weight shown in Table A-1.[3]

These weighting procedures generated summary data representative of all first-time, full-time students entering institutions of higher education in the fall of 1988. Note that the SIF was completed by entering freshmen; consequently the data reflect student responses prior to any substantial experience with college life.

The Student Information Form

The SIF is designed to serve two functions: first, to obtain student input data for longitudinal research; and second, to obtain standard descriptive and normative data for general information about the freshman population at American colleges. The questionnaire includes standard biographic and demographic items that have been administered annually to each entering class, as well as research-oriented items that may have been modified from previous years (e.g., see the list of attitudinal questions listed under item #32, Appendix B). The inclusion of modified items permits a more thorough coverage of student characteristics but also represents a compromise between two mutually exclusive objectives: (1) comparability of information from year to year which is required for assessing trends; and (2) flexibility in item content to meet changing information and research needs. Table A-2 lists the 1988 SIF items and indicates previous survey years in which comparable items have been used.

The SIF, reproduced in Appendix B, has been developed in collaboration with students, professional associations, participating institutions, government agencies, educational researchers, administrators, policy makers, and members of the CIRP Advisory Committee. It is designed for self-administration under proctored conditions and for processing onto magnetic tape with a mark reflex reader. The SIF content is reviewed annually by the CIRP project staff, with the assistance of the CIRP Advisory Committee as well as others interested in the annual freshman survey program.

Four tape files are developed from the SIF each year: (1) an institutional summary file containing institutional identification numbers and an institutional summary of the responses for men and women; (2) a file containing individual responses and a student identification number, but no names and addresses; (3) a name-and-address file containing a second, independent student identification number; and (4) a

[3]The cell weight in Table A-1 is a sex-specific constant for each sample institution in a given cell, whereas the within-institution weight is a sex-specific constant for a given institution but varies from one institution to another, depending on how adequately the institution "covered" its entering class.

Table A-1

Institutional Sample and Population Weights Used to Compute the 1988 National Freshman Norms

35,37. Private 4-year and 2-year	66	17	12	4.47	4.44

(1) Ratio between the number of 1988 first-time, full-time students enrolled in all colleges and the number of first-time full-time students enrolled at colleges in the 1988 CIRP sample.

(2) Categories within 4-year college and university types are based on selectivity, while categories within 2-year college types are based on freshman enrollment.

(3) No men's weighting factor is recorded for stratification cell #30 because the two schools included in the norms sample are both women's schools.

Table A-2

[a]The content of many of the items has varied somewhat over the past 23 years. For the exact content and wording of the item in any given year, check the appropriate Student Information Form.

"link" file containing *only* the two independent identification numbers. This last file is maintained under an elaborate system developed to ensure strict confidentiality of individual student data and to protect against misuse of the name-and-address file (Astin & Boruch, 1970).

The 1988 National Norms

Table A-3 shows the number of institutions and students on which the 1988 national norms are based; it also gives an estimate, derived through weighting procedures, of the total student population. (These counts are the product of the 1988 enrollments reported to us by the institutions and the cell weights shown in Table A-1.)

The creation of norms groups based on selectivity was accomplished as follows:

Selectivity Level	*Stratification Cells Assigned to Each Level*
low	1, 4, 7, 10, 11, 15, 16, 19, 20, 21, 24
medium	2, 5, 8, 12, 17, 22
high	3, 6, 9, 13, 18, 23
very high	14

New selectivity measures for the population (Astin & Henson, 1977) were used to restratify the CIRP population for the 1975 survey. These estimates are based on data provided in several published college guides and on data reported previously by Astin (1971). Most estimates were originally in the form of mean SAT Verbal (V) plus Mathematical (M) scores of entering freshmen. Mean ACT composite scores were converted into comparable mean SAT V+M scores (see Table 3-1 in Astin, 1971). The current dividing lines between selectivity levels are listed below:

	Universities				*Four-Year Institutions*							
	Private		Public		Public		Nonsectarian		Catholic		Protestant	
Dividing Line Between	SAT V+M	ACT	SAT V+M	ACT	SAT V+M	ACT	SAT V+M	ACT	SAT V+M	ACT	SAT V+M	ACT
low-medium	1050	24	1000	22.5	935	21	950	21.5	950	21.5	975	22
medium-high	1175	27	1100	25	1025	23	1025	23	1025	23	1050	24
high-very high	—	—	—	—	—	—	1175	27	—	—	—	—

These new selectivity measures are more recent, more accurate (i.e., most were provided directly by the institutions), and involve less missing data (i.e., fewer with "unknown" selectivity). For details see Astin and Henson (1977). Readers should note that the stratification design and cell assignments are used to group schools to develop population weights and should not be used as measure of institutional or program quality.

The items of normative data appear in the same order in the norms report and in the individual reports furnished to each participating institution. The first 45 pages of the national norms present item data separately for men, women, and all students according to the first 17 categories in Table A-3; the next two sets of 15 pages show norms for universities and four-year colleges, respectively, broken out by selectivity levels.

The different types of institutions can be compared on any given item by examining the percentages in the row following the item. For many items the data differ substantially among categories of institutions, as well as *within* any single category.

Table A-3

Number of Institutions and Students Used in Computing the Weighted National Norms in Fall 1988

Norm Group	Number of Institutions in the 1988 Norms	Number of 1988 Entering Freshmen (1)			
		Unweighted	Weighted		
		Participants	Number	% Men	% Women
All Institutions	402	222,296	1,640,212	46.27	53.73
All Universities	57	97,273	416,529	50.38	49.62

high select	12	12,791	27,591	57.51	42.49
4yr Public Colleges	42	32,506	365,767	45.37	54.63
low select (3)	19	11,844	208,212	43.44	56.56
medium select	13	12,393	110,599	46.32	53.68
high select	10	8,269	46,956	51.68	48.32
Private 4-year Colleges	247	76,670	278,029	45.37	54.63
Nonsectarian	116	39,590	138,862	47.56	52.44
low select (3)	34	10,599	67,048	48.47	51.53
medium select	19	7,082	23,330	45.13	54.87
high select	34	9,222	27,120	48.96	51.04
very high select	29	12,687	21,365	45.58	54.42
Catholic	44	13,096	51,641	42.41	57.59
low select (3)	17	3,190	16,171	36.15	63.85
medium select	14	4,001	20,651	44.61	55.39
high select	13	5,905	14,819	46.17	53.83
Protestant	87	23,984	87,526	43.65	56.35
low select (3)	38	7,962	46,762	42.42	57.58
medium select	29	8,734	22,642	45.29	54.71
high select	20	7,288	18,121	44.77	55.23
Public 2-year Colleges	35	11,294	513,472	44.95	55.05
Private 2-year Colleges	21	4,553	66,415	39.36	60.64
Public Black Colleges	4	1,781	35,942	40.09	59.91
Private Black Colleges	12	4,267	21,136	40.70	59.30
Eastern Region	158	85,578	734,348	47.33	52.67
Midwestern Region	107	60,146	390,432	47.95	52.05
Southern Region	93	43,337	311,107	42.23	57.77
Western Region	44	33,235	204,325	45.41	54.59

(1) First-time, full-time students
(2) Black Colleges are also included in the appropriate 4-year College or University Norms Group according to their types
(3) Includes those institutions with unknown selectivity

NOTE: The weighted counts may not always sum to identical totals due to rounding error.

It is impractical to report statistical indicators of precision for every categorical percentage in every norms group. However, some idea of the reliability of the reported data is important for comparisons across related item categories, and over time (i.e. with data from earlier norm reports). Appendix E presents some guidelines for judging the precision of the normative estimates and their comparisons.

Notes

1. Percentages will sum to more than 100 if any students check more than one category.
2. Because no Black two-year colleges participated in the 1988 survey, the associated Black enrollment is deflated in the two-year college norms and inflated in the four-year college norms.
3. Based on the curriculum recommendations of the National Commission on Excellence in Education.
4. Frequently only on this item, all other items in this group reflect responses for frequently or occasionally.
5. Students who applied to no other college (i.e. who applied to only one college) are not included in this item.
6. Recategortization of this item from a longer list shown in Appendix C.
7. Comparisons with the previous years not recommended due to change in item order.

Appendix B

The 1988 Student Information Form

PLEASE PRINT (one letter or number per box)

NAME: FIRST | M I | LAST

ADDRESS:

CITY: STATE: ZIP: PHONE: — —

When were you born? Month (01–12) Day (01–31) Year

1988 STUDENT INFORMATION FORM

DIRECTIONS

Your responses will be read by an optical mark reader. Your careful observance of these few simple rules will be most appreciated.

- Use only black lead pencil (No. 2 is ideal).
- Make heavy black marks that fill the circle.
- Erase cleanly any answer you wish to change.
- Make no stray markings of any kind.

EXAMPLE:

Will marks made with ballpoint or felt-tip marker be properly read? Yes... ○ No... ●

Dear Student:

The information in this form is being collected as part of a continuing study of higher education conducted jointly by the American Council on Education and the University of California at Los Angeles. Your voluntary participation in this research is being solicited in order to achieve a better understanding of how students are affected by their college experiences. Detailed information on the goals and design of this research program are furnished in research reports available from the Higher Education Research Institute at UCLA. Identifying information has been requested in order to make subsequent mail follow-up studies possible. Your response will be held in the strictest professional confidence.

Sincerely, Alexander W. Astin

Alexander W. Astin, Director
Higher Education Research Institute

PLEASE USE # 2 PENCIL

FORM NO.: 66428

PLEASE PROVIDE YOUR SOCIAL SECURITY NO. — Mark here if directed: GRP. CODE A, GRP. CODE B

1. Your sex: Male... ○ Female... ○

2. How old will you be on December 31 of this year? (Mark one)
   16 or younger ○ 17 ○ 18 ○ 19 ○ 20 ○ 21–24 ○ 25–29 ○ 30–39 ○ 40–54 ○ 55 or older ○

3. Are you a twin? (Mark one)
   No ○ Yes, identical ○ Yes, fraternal ○

4. In what year did you graduate from high school? (Mark one)
   1988 ○ 1987 ○ 1986 ○ 1985 or earlier ○ Did not graduate but passed G.E.D. test ○ Never completed high school ○

5. Are you enrolled (or enrolling) as a: (Mark one)
   Full-time student? ○ Part-time student? ○

6. How many miles is this college from your permanent home? (Mark one)
   5 or less ○ 6–10 ○ 11–50 ○ 51–100 ○ 101–500 ○ More than 500 ○

(NOTE: Please check that your pencil markings are completely darkening the circles. DO NOT USE PEN OR MAKE ✓'s OR x's. Thank you.)

7. What were your scores on the SAT and/or ACT?
   SAT VERBAL
   MATH
   ACT Composite

8. How many of the following did you take in high school? (Mark one in each row)

	None	1	2 or more
Honors courses	0	1	2+
A.P. (Advanced Placement) courses	0	1	2+

9. What was your average grade in high school? (Mark one)
   A or A+ ○ A– ○ B+ ○ B ○ B– ○ C+ ○ C ○ D ○

10. During high school (grades 9–12) how many years did you study each of the following subjects? (Mark one for each item)

	None	½	1	2	3	4	5 or more
English	0	½	1	2	3	4	5
Mathematics	0	½	1	2	3	4	5
Foreign Language	0	½	1	2	3	4	5
Physical Science	0	½	1	2	3	4	5
Biological Science	0	½	1	2	3	4	5
History/Am. Govt	0	½	1	2	3	4	5
Computer Science	0	½	1	2	3	4	5
Art and/or Music	0	½	1	2	3	4	5

11. Prior to this term, have you ever taken courses for credit at this institution?
    Yes ○ No ○

12. Since leaving high school, have you ever taken courses at any other institution? (Mark all that apply in each column)

	For Credit	Not for Credit
No	○	○
Yes, at a junior or comty. college	○	○
Yes, at a four-year college or university	○	○
Yes, at some other postsecondary school (For ex., technical, vocational, business)	○	○

13. What is the highest academic degree that you intend to obtain? (Mark one in each column)

	Highest Planned	Highest Planned at this college
None	○	○
Vocational	○	○
Associate (Jr. College)	○	○
Bachelor's degree (BA, BS, etc.)	○	○
Master's degree (MA, MS, etc.)	○	○
Ph.D. or Ed.D.	○	○
M.D., D.O., D.D.S., or D.V.M.	○	○
LL.B., or J.D. (Law)	○	○
B.D. or M.DIV. (Divinity)	○	○
Other	○	○

14. Where do you plan to live during the fall term? If you had a choice, where would you prefer to live? (Mark one in each column)

	Plan To Live	Prefer To Live
With parents or relatives	○	○
Other private home, apt. or rm.	○	○
College dormitory	○	○
Fraternity or sorority house	○	○
Other campus student housing	○	○
Other	○	○

15. Is this college your: (Mark one)
    First choice? ○ Second choice? ○ Third choice? ○ Less than third choice? ○

16. To how many colleges other than this one did you apply for admission this year?
    No other ○ 1 ○ 2 ○ 3 ○ 4 ○ 5 ○ 6 or more ○

    Note: If you applied to no other college, skip to item 18.

17. How many other acceptances did you receive this year? (Mark one)
    None ○ 1 ○ 2 ○ 3 ○ 4 ○ 5 ○ 6 or more ○

18. Is English your native language?
    Yes ○ No ○

19. How much of your first year's educational expenses (room, board, tuition, and fees) do you expect to cover from each of the sources listed below? (Mark one answer for each possible source)

	None	$1–499	$500–999	$1,000–1,499	$1,500–1,999	$2,000–2,999	Over $3,000
a. My Own or Family Resources							
Parents, other relatives or friends	○	○	○	○	○	○	○
Spouse	○	○	○	○	○	○	○
Savings from summer work	○	○	○	○	○	○	○
Other savings	○	○	○	○	○	○	○
Part-time on campus job	○	○	○	○	○	○	○
Other part-time job while in college	○	○	○	○	○	○	○
Full-time job while in college	○	○	○	○	○	○	○
b. Aid Which Need Not Be Repaid							
Pell Grant	○	○	○	○	○	○	
Supplemental Educational Opportunity Grant	○	○	○	○	○	○	
State Scholarship or Grant	○	○	○	○	○	○	
College Work-Study Grant	○	○	○	○	○	○	
College Grant/Scholarship (other than above)	○	○	○	○	○	○	○
Other private grant	○	○	○	○	○	○	○
Other Government Aid (ROTC, BIA, GI/military benefits, etc.)	○	○	○	○	○	○	○
c. Aid Which Must Be Repaid							
Federal Guaranteed Student Loan	○	○	○	○	○	○	
National Direct Student Loan	○	○	○	○	○	○	
Other College Loan	○	○	○	○	○	○	○
Other Loan	○	○	○	○	○	○	○
d. Other Than Above	○	○	○	○	○	○	○

20. Are you a U.S. citizen? Yes ○ No ○
Permanent Resident (Green Card) ○

21. Are you: (Mark all that apply)
- White/Caucasian ○
- Black/Negro/Afro-American ○
- American Indian ○
- Asian-American/Oriental ○
- Mexican-American/Chicano ○
- Puerto Rican-American ○
- Other ○

22. How would you describe the racial composition of the high school you last attended and the neighborhood where you grew up?

	Completely non-White	Mostly non-White	Roughly half non-White	Mostly White	Completely White
High school I last attended	○	○	○	○	○
Neighborhood where I grew up	○	○	○	○	○

23a. Are your parents: (Mark one)
- Both alive and living with each other? ○
- Both alive, divorced or separated? ○
- One or both deceased? ○

23b. How many brothers and sisters now living do you have?

	None	1	2	3 or more
Number of older brothers	○	○	○	○
Number of older sisters	○	○	○	○
Number of younger brothers	○	○	○	○
Number of younger sisters	○	○	○	○

24. For the activities below, indicate which ones you did during the past year. If you engaged in an activity frequently, mark (F). If you engaged in an activity one or more times, but not frequently, mark (O) (occasionally). Mark (N) (Not at all) if you have not performed the activity during the past year.

(Mark one for each item)	Frequently	Occasionally	Not at all
Used a personal computer	F	O	N
Attended a religious service	F	O	N
Was bored in class	F	O	N
Participated in organized demonstrations	F	O	N
Won a varsity letter for sports	F	O	N
Failed to complete a homework assignment on time	F	O	N
Tutored another student	F	O	N
Discussed religion	F	O	N
Did extra (unassigned) work/reading for a course	F	O	N
Copied homework from another student	F	O	N
Studied with other students	F	O	N
Was a guest in a teacher's home	F	O	N
Smoked cigarettes	F	O	N
Discussed sex	F	O	N
Cheated on a test in school	F	O	N
Drank beer	F	O	N
Drank wine or liquor	F	O	N
Discussed politics	F	O	N
Stayed up all night	F	O	N
Spoke a language other than English at home	F	O	N
Felt overwhelmed by all I had to do	F	O	N
Felt depressed	F	O	N
Discussed sports	F	O	N
Worked in a local, state, or national political campaign	F	O	N

25. Rate yourself on each of the following traits as compared with the average person your age. We want the most accurate estimate of how you see yourself.

(Mark one in each row)	Highest 10%	Above Average	Average	Below Average	Lowest 10%
Academic ability	○	○	○	○	○
Artistic ability	○	○	○	○	○
Competitiveness	○	○	○	○	○
Drive to achieve	○	○	○	○	○
Emotional health	○	○	○	○	○
Ability to learn a foreign language	○	○	○	○	○
Leadership ability	○	○	○	○	○
Mathematical ability	○	○	○	○	○
Physical health	○	○	○	○	○
Popularity	○	○	○	○	○
Popularity with the opposite sex	○	○	○	○	○
Public speaking ability	○	○	○	○	○
Self-confidence (intellectual)	○	○	○	○	○
Self-confidence (social)	○	○	○	○	○
Writing ability	○	○	○	○	○

26. In deciding to go to college, how important to you was each of the following reasons?

(Mark one answer for each possible reason)	Very important	Somewhat important	Not important
To be able to get a better job	V	S	N
To gain a general education and appreciation of ideas	V	S	N
To improve my reading and study skills	V	S	N
There was nothing better to do	V	S	N
To make me a more cultured person	V	S	N
To be able to make more money	V	S	N
To learn more about things that interest me	V	S	N
To prepare myself for graduate or professional school	V	S	N
My parents wanted me to go	V	S	N
I could not find a job	V	S	N
Wanted to get away from home	V	S	N

27. Do you have any concern about your ability to finance your college education? (Mark one)
- None (I am confident that I will have sufficient funds) ○
- Some concern (but I will probably have enough funds) ○
- Major concern (not sure I will have enough funds to complete college) ○

28. How would you characterize your political views? (Mark one)
- Far left ○
- Liberal ○
- Middle-of-the-road ○
- Conservative ○
- Far right ○

29. What is your best estimate of your parents' total income last year? Consider income from all sources before taxes. (Mark one)

○ Less than $6,000	○ $35,000–39,999
○ $6,000–9,999	○ $40,000–49,999
○ $10,000–14,999	○ $50,000–59,999
○ $15,000–19,999	○ $60,000–74,999
○ $20,000–24,999	○ $75,000–99,999
○ $25,000–29,999	○ $100,000–149,999
○ $30,000–34,999	○ $150,000 or more

30. What is the highest level of formal education obtained by your parents?

(Mark one in each column)	Father	Mother
Grammar school or less	○	○
Some high school	○	○
High school graduate	○	○
Postsecondary school other than college	○	○
Some college	○	○
College degree	○	○
Some graduate school	○	○
Graduate degree	○	○

31. Mark only three responses, one in each column.

(M) Your mother's occupation
(F) Your father's occupation
(Y) Your probable career occupation

NOTE: If your father or mother is deceased, please indicate his or her last occupation.

	Y	F	M
Accountant or actuary	Y	F	M
Actor or entertainer	Y	F	M
Architect or urban planner	Y	F	M
Artist	Y	F	M
Business (clerical)	Y	F	M
Business executive (management, administrator)	Y	F	M
Business owner or proprietor	Y	F	M
Business salesperson or buyer	Y	F	M
Clergy (minister, priest)	Y	F	M
Clergy (other religious)	Y	F	M
Clinical psychologist	Y	F	M
College teacher	Y	F	M
Computer programmer or analyst	Y	F	M
Conservationist or forester	Y	F	M
Dentist (including orthodontist)	Y	F	M
Dietician or home economist	Y	F	M
Engineer	Y	F	M
Farmer or rancher	Y	F	M
Foreign service worker (including diplomat)	Y	F	M
Homemaker (full-time)	Y	F	M
Interior decorator (including designer)	Y	F	M
Interpreter (translator)	Y	F	M
Lab technician or hygienist	Y	F	M
Law enforcement officer	Y	F	M
Lawyer (attorney) or judge	Y	F	M
Military service (career)	Y	F	M
Musician (performer, composer)	Y	F	M
Nurse	Y	F	M
Optometrist	Y	F	M
Pharmacist	Y	F	M
Physician	Y	F	M
School counselor	Y	F	M
School principal or superintendent	Y	F	M
Scientific researcher	Y	F	M
Social, welfare or recreation worker	Y	F	M
Statistician	Y	F	M
Therapist (physical, occupational, speech)	Y	F	M
Teacher or administrator (elementary)	Y	F	M
Teacher or administrator (secondary)	Y	F	M
Veterinarian	Y	F	M
Writer or journalist	Y	F	M
Skilled trades	Y	F	M
Other	Y		
Undecided	Y		
Laborer (unskilled)		F	M
Semi-skilled worker		F	M
Other occupation		F	M
Unemployed		F	M

32. Mark one in each row:

(1) Disagree Strongly
(2) Disagree Somewhat
(3) Agree Somewhat
(4) Agree Strongly

	4	3	2	1
The Federal government is not doing enough to protect the consumer from faulty goods and services	4	3	2	1
The Federal government is not doing enough to promote disarmament	4	3	2	1
The Federal government is not doing enough to control environmental pollution	4	3	2	1
The Federal government should raise taxes to help reduce the deficit	4	3	2	1
There is too much concern in the courts for the right of criminals	4	3	2	1
Federal military spending should be increased	4	3	2	1
Nuclear disarmament is attainable	4	3	2	1
Abortion should be legalized	4	3	2	1
The death penalty should be abolished	4	3	2	1
If two people really like each other, it's all right for them to have sex even if they've known each other for only a very short time	4	3	2	1
The activities of married women are best confined to the home and family	4	3	2	1
A couple should live together for some time before deciding to get married	4	3	2	1
Students might appreciate the value of college more if they had to pay a greater share of the costs	4	3	2	1
Marijuana should be legalized	4	3	2	1
Busing is O.K. if it helps to achieve racial balance in the schools	4	3	2	1
It is important to have laws prohibiting homosexual relationships	4	3	2	1
Colleges should not invest funds in companies that do business with South Africa	4	3	2	1
The chief benefit of a college education is that it increases one's earning power	4	3	2	1
Employers should be allowed to require drug testing of employees or job applicants	4	3	2	1
The best way to control AIDS is through widespread, mandatory testing	4	3	2	1
Just because a man thinks that a woman has "led him on" does not entitle him to have sex with her	4	3	2	1
Only volunteers should serve in the armed forces	4	3	2	1

33. During your last year in high school, how much time did you spend during a typical week doing the following activities?

Hours per week:	none	1/2	1–2	3–5	6–10	11–15	16–20	over 20
Studying/homework								
Socializing with friends								
Talking with teachers outside of class								
Exercising/sports								
Partying								
Working (for pay)								
Volunteer work								
Student clubs/groups								
Watching TV								
Hobbies								

34. Current religious preference: (Mark one in each column)

	Yours	Father's	Mother's
Baptist	Y	F	M
Buddhist	Y	F	M
Congregational	Y	F	M
Eastern Orthodox	Y	F	M
Episcopal	Y	F	M
Islamic	Y	F	M
Jewish	Y	F	M
LDS (Mormon)	Y	F	M
Lutheran	Y	F	M
Methodist	Y	F	M
Presbyterian	Y	F	M
Quaker	Y	F	M
Roman Catholic	Y	F	M
Seventh Day Adventist	Y	F	M
Other Protestant	Y	F	M
Other Religion	Y	F	M
None	Y	F	M

35. Do you consider yourself a born-again Christian?

Yes ◯ No ◯

36. Below are some reasons that might have influenced your decision to attend this particular college. How important was each reason in your decision to come here? (Mark one answer for each possible reason)

	Very important	Somewhat important	Not important
My relatives wanted me to come here	V	S	N
My teacher advised me	V	S	N
This college has a very good academic reputation	V	S	N
This college has a good reputation for its social activities	V	S	N
I was offered financial assistance	V	S	N
This college offers special educational programs	V	S	N
This college has low tuition	V	S	N
My guidance counselor advised me	V	S	N
I wanted to live near home	V	S	N
A friend suggested attending	V	S	N
A college rep. recruited me	V	S	N
The athletic dept. recruited me	V	S	N
This college's graduates get good jobs	V	S	N
Not offered financial aid by first choice college	V	S	N

37. Do you have a disability? (Mark all that apply)

None	◯	Learning disability	◯
Hearing	◯	Health-related	◯
Speech	◯	Partially sighted or blind	◯
Orthopedic	◯	Other	◯

38. Below is a list of different undergraduate major fields grouped into general categories. Mark only one circle to indicate your probable field of study.

ARTS AND HUMANITIES
- Art, fine and applied ○
- English (language and literature) ○
- History ○
- Journalism ○
- Language and Literature (except English) ○
- Music ○
- Philosophy ○
- Speech ○
- Theater or Drama ○
- Theology or Religion ○
- Other Arts and Humanities ○

BIOLOGICAL SCIENCE
- Biology (general) ○
- Biochemistry or Biophysics ○
- Botany ○
- Marine (Life) Science ○
- Microbiology or Bacteriology ○
- Zoology ○
- Other Biological Science ○

BUSINESS
- Accounting ○
- Business Admin. (general) ○
- Finance ○
- Marketing ○
- Management ○
- Secretarial Studies ○
- Other Business ○

EDUCATION
- Business Education ○
- Elementary Education ○
- Music or Art Education ○
- Physical Education or Recreation ○
- Secondary Education ○
- Special Education ○
- Other Education ○

ENGINEERING
- Aeronautical or Astronautical Eng. ○
- Civil Engineering ○
- Chemical Engineering ○
- Electrical or Electronic Engineering ○
- Industrial Engineering ○
- Mechanical Engineering ○
- Other Engineering ○

PHYSICAL SCIENCE
- Astronomy ○
- Atmospheric Science (incl. Meteorology) ○
- Chemistry ○
- Earth Science ○
- Marine Science (incl. Oceanography) ○
- Mathematics ○
- Physics ○
- Statistics ○
- Other Physical Science ○

PROFESSIONAL
- Architecture or Urban Planning ○
- Home Economics ○
- Health Technology (medical, dental, laboratory) ○
- Library or Archival Science ○
- Nursing ○
- Pharmacy ○
- Predental, Premedicine, Preveterinary ○
- Therapy (occupational, physical, speech) ○
- Other Professional ○

SOCIAL SCIENCE
- Anthropology ○
- Economics ○
- Ethnic Studies ○
- Geography ○
- Political Science (gov't., international relations) ○
- Psychology ○
- Social Work ○
- Sociology ○
- Women's Studies ○
- Other Social Science ○

TECHNICAL
- Building Trades ○
- Data Processing or Computer Programming ○
- Drafting or Design ○
- Electronics ○
- Mechanics ○
- Other Technical ○

OTHER FIELDS
- Agriculture ○
- Communications (radio, TV, etc.) ○
- Computer Science ○
- Forestry ○
- Law Enforcement ○
- Military Science ○
- Other Field ○
- Undecided ○

© Prepared by the Higher Education Research Institute, University of California, Los Angeles, California 90024.

39. Indicate the importance to you personally of each of the following: (Mark one for each item)

(E) Essential (V) Very Important (S) Somewhat Important (N) Not Important

	E	V	S	N
Becoming accomplished in one of the performing arts (acting, dancing, etc.)	E	V	S	N
Becoming an authority in my field	E	V	S	N
Obtaining recognition from my colleagues for contributions to my special field	E	V	S	N
Influencing the political structure	E	V	S	N
Influencing social values	E	V	S	N
Raising a family	E	V	S	N
Becoming an expert on finance and commerce	E	V	S	N
Having administrative responsibility for the work of others	E	V	S	N
Being very well off financially	E	V	S	N
Helping others who are in difficulty	E	V	S	N
Participating in an organization like the Peace Corps or Vista	E	V	S	N
Making a theoretical contribution to science	E	V	S	N
Writing original works (poems, novels, short stories, etc.)	E	V	S	N
Creating artistic work (painting, sculpture, decorating, etc.)	E	V	S	N
Keeping up to date with political affairs	E	V	S	N
Being successful in a business of my own	E	V	S	N
Developing a meaningful philosophy of life	E	V	S	N
Participating in a community action program	E	V	S	N
Helping to promote racial understanding	E	V	S	N
Getting married	E	V	S	N

40. What is your best guess as to the chances that you will: (Mark one for each item)

(V) Very Good Chance (S) Some Chance (L) Very Little Chance (N) No Chance

	V	S	L	N
Change major field?	V	S	L	N
Change career choice?	V	S	L	N
Fail one or more courses?	V	S	L	N
Graduate with honors?	V	S	L	N
Be elected to a student office?	V	S	L	N
Get a job to help pay for college expenses?	V	S	L	N
Work full time while attending college?	V	S	L	N
Join a social fraternity, sorority, or club?	V	S	L	N
Play varsity/intercollegiate athletics?	V	S	L	N
Be elected to an academic honor society?	V	S	L	N
Make at least a "B" average?	V	S	L	N
Need extra time to complete your degree requirements?	V	S	L	N
Get tutoring help in specific courses?	V	S	L	N
Have to work at an outside job during college?	V	S	L	N
Seek vocational counseling?	V	S	L	N
Seek individual counseling on personal problems?	V	S	L	N
Get a bachelor's degree (B.A., B.S., etc.)?	V	S	L	N
Participate in student protests or demonstrations?	V	S	L	N
Drop out of this college temporarily (exclude transferring)?	V	S	L	N
Drop out permanently (exclude transferring)?	V	S	L	N
Transfer to another college before graduating?	V	S	L	N
Be satisfied with your college?	V	S	L	N
Find a job after college in the field for which you were trained?	V	S	L	N
Get married while in college? (skip if married)	V	S	L	N
Get married within a year after college? (skip if married)	V	S	L	N

The Higher Education Research Institute at UCLA actively encourages the colleges that participate in this survey to conduct local studies of their students. If these studies involve collecting follow-up data, it is necessary for the institution to know the students' ID numbers so that follow-up data can be linked with the data from this survey. If your college asks for a tape copy of the data and signs an agreement to use it only for research purposes, do we have your permission to include your ID number in such a tape?

Yes ○ No ○

The remaining circles are provided for items specifically designed by your college, rather than by the Higher Education Research Institute. If your college has chosen to use the circles, observe carefully the supplemental directions given you.

THANK YOU!

Appendix C

Coding Scheme for Collapsed Items

1. Father's Occupation
2. Mother's Occupation

Father's Occupation

Collapsed Category	Item Response Alternatives
Artist	Actor or entertainer; Artist; Interior decorator (or designer); Musician (composer; performer); Writer or journalist.
Business	Accountant or actuary; Business executive; Business owner or proprieter; Salesman or buyer.
Clergy or Religious Worker	Clergyman (minister; priest); Clergy (other religious).
College Teacher	College teacher.
Doctor	Dentist (including orthodontist); Physician.
Educator (secondary)	School counselor; School principal or superintendent; Teacher or administrator (secondary).
Elementary Teacher	Teacher or administrator (elementary).
Engineer	Engineer.
Farmer/Forester	Conservationist or forester; Farmer or rancher.
Health Professional	Dietitian or home economist; Lab technician or hygienist; Optometrist; Pharmacist; Therapist (physical, occupational, or speech); Veterinarian.
Lawyer	Lawyer (attorney) or judge.
Military Career	Military service (career).
Research Scientist	Scientific researcher.
Skilled Worker	Skilled trades.
Semiskilled Worker	Semiskilled worker.
Laborer	Laborer (unskilled).
Unemployed	Unemployed.
Other	Architect or urban planner; Business (clerical); Clinical psychologist; Computer programmer or analyst; Foreign service worker (including diplomat); Homemaker (full-time); Interpretor (translator); Law enforcement officer; Nurse; Social, welfare, or recreation worker; Statistician; Other occupation not listed above.

Mother's Occupation

Collapsed Category	Item Response Alternatives
Artist	Actor or entertainer; Artist; Interior decorator (or designer); Musician (composer; performer); Writer or journalist.
Business	Accountant or actuary; Business executive; Business owner or or proprieter; Salesman or buyer.
Clergy or Religious Worker	Clergyman (minister; priest); Clergy (other religious).
College Teacher	College teacher.
Doctor	Dentist (including orthodontist); Physician.
Educator (secondary)	School counselor; School principal or superintendent; Teacher or administrator (secondary).
Elementary Teacher	Teacher or administrator (elementary).
Engineer	Engineer.
Farmer/Forester	Conservationist or forester; Farmer or rancher.
Health Professional	Dietitian or home economist; Lab technician or hygienist; Optometrist; Pharmacist; Therapist (physical, occupational, or speech); Veterinarian.
Homemaker (full-time)	Homemaker (full-time).
Lawyer	Lawyer (attorney) or judge.
Nurse	Nurse.
Military Career	Military service (career).
Research Scientist	Scientific researcher.
Social, Welfare, or Recreation Worker	Social, welfare, or recreation worker.
Skilled Worker	Skilled trades.
Semiskilled Worker	Semiskilled worker.
Laborer	Laborer (unskilled).
Unemployed	Unemployed.
Other	Architect or urban planner; Clinical psychologist; Computer programmer or analyst; Foreign service worker (including diplomat); Intrepretor (translator); Law enforcement officer; Statistician; Other occupation not listed above.

[a]Participation in the ACE-UCLA Cooperative Institutional Research Program (CIRP) for a given year is indicated by an "@" or an "X." Institutions providing data judged to be representative of their first-time, full-time freshman class and included in the national norms report are indicated by an "@." Campuses that participated in the survey but whose data were not included in the norms report are noted by an "X." Participation for 1988 is shown for those institutions that had submitted their data in time to be included in this publication.

Appendix E

Precision of the Normative Data and Their Comparisons

Appendix E

The Precision of the Normative Data and Their Comparisons

So far as *random* errors are concerned, the standard error of a categorical percentage is a function of that group and the number of participants (unweighted) in the norm group. Approximate standard errors are presented for various item response percentages, by size of the norm group, are presented in Table E-1. If one allows for finite sampling and stratification, values would be somewhat lower. Primarily, however, stratification ensures some sampling in all sectors of higher education and provides a basis in the weighting procedures for disproportionate sampling of institutions. In comparisons involving item response, standard error of the difference is approximately equal to the square root of the sum of shared sampling errors.

A potentially important source of error in the stratification sampling is the nonrepresentativeness of the samples within each stratification cell. Although reasonable precautions are taken to minimize known sources of systematic bias, the data are subject to some unknown degree of constant and nonrandom sampling errors. A participating institution must be cautious when it compares its own summary data with the data for the corresponding national norms group, especially when the institution is small or when the campus has not surveyed all its entering freshmen.

While comparisons of data since 1975 with earlier published national norms from the first nine freshmen survey reports (1966-1974) are possible, it is recommended that such comparisons not be done until the publication of a revised set of norms for these earlier years that are based on the stratification scheme employed since 1975. Those who wish to compare the pre- and post-1975 data before the revised norms are available should keep in mind the following considerations:

1. In addition to the revised selectivity measures introduced in 1975, major changes in the stratification and weighting procedures were introduced in 1968 (the addition of cells for black colleges and the use of selectivity levels) and again in 1971 (the addition of cells for public and private universities, public and private black colleges, and the use of size in the stratification scheme for two-year institutions).

2. The *exact* wording of items on the survey instrument and norms reports should be examined carefully since certain items may not be comparable because of minor word changes over the course of the survey. Minor changes can and do affect the comparability of items on the questionnaire.

3. While every effort has been made to maximize the comparability of the institutional sample from year-to-year (repeat participation runs about 90 percent), comparability is reduced somewhat by (a) non-repeat participation, and (b) year-to-year variation in the quality of data collected by continuing institutional participants.

Table E-1

Standard Errors of Categorical Response Percentages for Norms Groups of Various Sizes[a]

Number of Actual Participants in a Norms Group[b]	Standard Error			
	1% or 99%	10% or 90%	25% or 75%	50%
2,500	.199	.600	.866	1.000
5,000	.141	.424	.612	.707
7,500	.115	.347	.500	.577
10,000	.100	.300	.433	.500
25,000	.063	.190	.274	.316
50,000	.044	.134	.194	.224
75,000	.036	.110	.158	.183
100,000	.031	.095	.137	.158
150,000	.026	.077	.112	.129
175,000	.024	.071	.104	.120

[a]Assumes simple random sampling of students from an infinite population.

[b]To determine 1988 population counts, please refer to Table A-3, column 2.

(*) TOTAL NUMBER OF VALID FORMS RECEIVED IS INDICATED BY THE FIRST NUMBER IN THIS ROW. PLEASE NOTE THAT COMPARISONS BETWEEN YOUR CONSORTIUM DATA AND NATIONAL NORMS SHOULD BE MADE WITH CAUTION, UNLESS ALL INSITUTIONS IN THE CONSORTIUM ARE IN THE SAME NORMS GROUP AND HAVE REPRESENTATIVE SAMPLES.

(**) THIS ITEM IS REPORTED FOR THE FIRST TIME IN 1988. ITEMS NOT INDICATED WITH "**" ARE REPEATED OR MODIFIED QUESTIONS FROM ONE OR MORE OF THE EARLIER SURVEYS.

(1) PERCENTAGES WILL SUM TO MORE THAN 100 IF ANY STUDENTS CHECKED MORE THAN ONE CATEGORY.

(2) BECAUSE NO BLACK TWO-YEAR COLLEGES PARTICIPATED IN 1988, THE ASSOCIATED BLACK ENROLLMENT IS DEFLATED IN TWO-YEAR COLLEGE NORMS AND INFLATED IN FOUR-YEAR COLLEGE NORMS.

(3) BASED ON THE CURRICULUM RECOMMENDATIONS OF THE NATIONAL COMMISSION ON EXCELLENCE IN EDUCATION.

(4) FREQUENTLY ONLY, ALL OTHER ITEMS FREQUENTLY PLUS OCCASIONALLY.

(5) STUDENTS WHO APPLIED TO NO OTHER COLLEGE ARE NOT INCLUDED IN THIS ITEM.

(6) RECATEGORIZATION OF THIS ITEM FROM A LONGER LIST IS SHOWN IN APPENDIX C OF THE AMERICAN FRESHMAN

(7) COMPARISONS WITH PREVIOUS YEARS NOT RECOMMENDED DUE TO CHANGE IN ITEM ORDER. SEE APPENDIX G OF THE AMERICAN FRESHMAN FOR MORE DETAILS.

Appendix G

Comparing Survey Results From Various Versions of the Norms

Comparing Survey Results From Various Versions of the Norms

Note no. 7 in the National Norms report for 1988 states that "comparisons with previous years [are] not recommended due to change in item order." This note was included as a result of some startling (and improbable) changes in the results for certain survey items between 1987 and 1988.

In preparing the 1988 norms report (CIRP), the staff of the Cooperative Institutional Research Program compares the current year results with previous year data. Because of the large sample sizes involved, it is very unusual for the response for any given survey item to change more than two or three percentage points from one year to the next. Any change larger than this range is examined very closely under the presumption that it might be caused by a processing, coding, or survey form scanning error.

In 1988 the CIRP staff discovered that the response for one of the most often-reported items in the survey — the student objective of "develop a meaningful philosophy of life" — jumped from 39.4 percent in 1987 to 50.5 percent in 1988. When it became clear that several other student objectives either exhibited large changes or reversals in long-term trends, the CIRP staff conducted exhaustive analysis of all computer programs and scanner programs to find the source of the error. No errors were found.

The true explanation of these discrepancies emerged from an analysis of the order of student objective items used in the 1988 survey. From the beginning of the CIRP in 1966 to the mid-1980's, the item order for the student objectives question was very consistent. Items were added or removed from the list only occasionally, and item sequence was virtually identical from year to year. In 1988, certain items that had been dropped from the list were reinstated, one was dropped, and the order of all items after the first five were accordingly changed. These changes in sequence explained virtually every discrepancy in the 1988 results.

In the case of the goal "to develop a meaningful philosophy of life," the discrepancy appeared to be caused by the item which preceded it. From 1971 to 1987, the preceding item was "become involved in programs to clean up the environment." When this item was dropped in 1988, the preceding question became "be successful in my own business." The environment item, particularly in the 1980's, was considered to be a very important objective by barely one-quarter or less of the freshmen. The business item, on the other hand, was considered very important by 45-50 percent of the freshmen. Apparently, the respondents were predisposed by their response to the environment item when considering their response to the "philosophy of life" item.

This phenomenon is not unknown to survey researchers. What was surprising about this instance of order effect was the magnitude. The CIRP staff believes that it is the nature of the question, which is highly speculative and may well contain items not previously considered by entering freshmen, that allows the effect of the preceding item to assume such importance. In an item dealing with issues of fact (such as activities in the previous year), the order effect would very probably be negligible in comparison to actual changes in response patterns over the years.

The other item which suffered from this effect in 1988, "graduates get good jobs" (in the question #36, "reasons for choosing this college"), also had a new preceding question. In 1987, the preceding item was "graduates go to top graduate schools." This item was dropped in 1988. Apparently, its very presence "set" respondents to consider the value of their college for the future benefits of attendance, while virtually all other items in the question dealt with already existing reasons for choosing the college (e.g., academic reputation, low tuition). By removing the "top graduate schools" item, the predilection for considering future benefits was reduced, with a corresponding drop in response of some 14 percentage points.

Under these circumstances, one might think it wise to drop these "tainted" items from the 1988 Norms report. The data show, however, that although comparisons between years are not valid, the order effect impacted the responses of students in all types of institutions to about the same degree; therefore, comparisons of the 1988 results of the between norms groups and between institutions and norms groups, are nonetheless valid.
